

Notice of Rate and Fee Increase

Below you will find our new water rates and fees beginning December 1, 2021. The new water rates reflect a 10% increase due to the recent increase in the cost of fuel, wages, supplies, insurance, equipment, and utilities. Please note that we have removed the TDEC fee from showing on your bill and added that cost into the minimum rate which will have no effect on your total bill.

We will continue trying to make sound management decisions to get the most for the District's investment. The employees of Gibson County Municipal Water District are committed to providing our customers with safe, clean, and affordable drinking water. Please feel free to call me at 731-855-0411 if you have any questions. Robert Galloway General Manager
